Literature Review Post on May 13

- Bonjour Action Learners - Please note the following:
- The literature review deadline will be extended to 18h30 on June 3; it must be submitted in MS Word
- When posting files please put your group in the title (thus avoiding me having many files with the same name)
- An online session to assist you has been scheduled for May ~~22~~ 18 at 18h30 - attendance is mandatory
- This link was provided at the Kickoff meeting: <https://writingcenter.uagc.edu/writing-literature-review>
- Before the session be sure to view the tutorial and download the sample. They are very helpful.
- I remind you of the materials in the last session of Communication for Leaders on "Reliable Sources"

Milestones and Deliverables

These 4 must be posted in a folder titled “Deliverables” in your group’s private channel by 18h00 on the dates below

menti.com

Code: 69 71 56 7

Sign in with your Group identifier followed by your name – note the two spaces
(e.g. ISM 2 Sarah, SE 1 Paul, DSA 6 Abdul)

Action Learning Credits Reminder

Innovation				
ISM	Business Strategies & Analysis	French Language Program Msc (A2-B1)	HUM_506_FLE3	4
		IT Purchase	FIN_507_ITPR	1
		Action Learning	INF_560_ACL	5
Data Science				
DS	Data Science Applications	How To Use Devops Approach	SYS_523_DEVOPS_M	1
		Computer Vision	INF_533_CVIA_M	2
		Natural Language Processing	INF_538_DLNP_M	1
		Action Learning	INF_560_ACL	5
		Data Science in Production	INF_541_DSP	2
Advanced Programming				
SE	Software Industrialization	How To Use Devops Approach	SYS_523_DEVOPS_M	1
		Software Industrialization	MET_514_SIQA	1
		Software Quality Assurance	MET_311_QMDL	1
		Action Learning	INF_560_ACL	4
CS	Advanced Management & Engineering Science	Cross-Border Management	MAN_516_CBM	1
		French Language Program Msc (A2-B1)	HUM_506_FLE3	4
		Knowledge Management & Innovation	MAN_505_KMI	3
		Action Learning	INF_560_ACL	5

AIS	Operational Methodologies	Career Project Elaboration	MAN_501_CPE	1
		Action Learning	INF_560_ACL	4
		Data Science in Production	INF_541_DSP	2
		Ethical Development of AI Applications	HUM_420_ETAI_M	1
Advanced Programming				
ME	Software Industrialization	How To Use Devops Approach	SYS_523_DEVOPS_M	6
		Software & Database Security	INF_512_SOSE	3
		Software Industrialization	MET_514_SIQA	6
		Software Quality Assurance	MET_311_QMDL	6
		Action Learning	INF_560_ACL	4

Communication Reminder

- MS Teams is our method of communication
- Action Learning General Channel – for everyone
- Private channel by groups
- You must set your notifications and check postings regularly
- Acknowledge receipts of important messages and announcements when requested with an emoji reaction (not as a post). I want to count them.
- Apply what you learned in Communication for Leaders
 - Meaningful titles for new threads
 - Concise, clear, well-written messages

Documenting Your Sources Post on May 13

- Almost all groups have now submitted their preliminary bibliography. I remind you that your sources should be put into MS Word, which will be used for your thesis.
- You saw this video in Communication for Leaders.
- https://www.youtube.com/watch?v=firc63vtyqQ&ab_channel=RichardByrneYouTube
 - An Easy Way to Create a Bibliography in Microsoft Word
- I will also post a document with screenshots
- [Adding sources to your bibliography.docx]

Writing a Literature Review

Resources

Be organized
around a
specific topic

LITERATURE REVIEW

Discuss what
is and is not
known

Summarize each
source's main
points

Identify areas
of controversy
or gaps

Formulate
questions that
need further
research

CHRONOLOGICAL

TRENDS

Ways to Organize
Your Sources

THEMATIC

METHODOLOGICAL

Literature Review Purpose

- What research already exists about the issue's various angles and components?
- This section gives the reader a good “education” about such issues as history of the issue, theoretical underpinnings or foundations, specific research about angles you may wish to approach.
- **“The literature review should be used to develop a working framework and shared vocabulary for yourself and your reader by introducing terminology, theories, and concepts that play a role in your research and analysis” (Prof. Lauren Feldman, Rutgers University)**

Literature Review

- What is known about the subject?
- Are there any gaps in the knowledge of the subject?
- Have areas of further study been identified by other researchers that you may want to consider?
- Who are the significant researchers in this area?
- Is there consensus about the topic?
- What aspects have generated significant debate on the topic?
- What methods or problems were identified by others studying in the field and how might they impact your research?
- What is the most productive methodology for your research based on the literature you have reviewed?
- What is the current status of research in this area?
- What sources of information or data were identified that might be useful to you?

Thanks for your
contribution to
the program!
