

Description

The Project Career Elaboration workshop purpose is to assist International Master students to build their career project by making a precise assessment of their skills (technical and human) in a French cultural context. This workshop will help them to build their resume (CV) in French, to practice the techniques of interviews at job dating for their future internships or jobs interviews.

Learning Objectives and Outcomes

- Bring the student to assess personal experiences and skills in order to input in a resume close to her or his own personality
- Elaborate a resume(CV) covering all the aspects
- Prepare an oral presentation in 2 minutes (elevator pitch) to describe experiences, skills and objectives using storytelling and punchlines techniques
- Understand how to value career and personal path to develop confidence level
- Learn how to project oneself in a future career path
